

SOMMAIRE

9 35

Robust automatic voltage regulator design using Bode's ideal transfer function

H. BEKKOUCHE, A. CHAREF

Assessment of heat recovery and recovery efficiency of a seasonal thermal energy storage in a moist porous medium

M.A. DADA, A. BENCHATTI

23 43

Etude de la formation et du développement des tourillons au voisinage du champ proche du bout d'aile

M. SOUBIH, B. IMINE

Ténacité dynamique en flexion 3 points de matériaux composites bidirectionnels jute - polyester

D. DJEGHADER, B. REDJEL

29

Numerical investigation for natural convection boundary layer flow of a nanofluid along an inclined plate embedded in a darcy porous medium

H. ALI AGHA
